PROFESSIONAL SUMMARY

BIM Engineer with **5+ years** across modelling, coordination, clash detection, and full-lifecycle BIM implementation on mega-scale projects in Saudi Arabia and Jordan. Holds a B.Sc. in Civil Engineering and a Diploma in Architectural Engineering, and is completing an M.Sc. in Project Management. Certified across **17 professional credentials** from Autodesk, Niqat, and iRAP. A rare multidisciplinary profile combining BIM, civil and architectural engineering, road safety, and project management — able to carry a project from first concept to operation.

EXPERIENCE

Civil Engineer — Road Safety & Infrastructure | Consolidated Consultants (CCG)

Sep 2024 – Present · Riyadh

- Lead road-safety assessment for **300+ school & mosque zones** using the iRAP / SR4S methodology — speed and traffic analysis, road and signage improvements, and Civil 3D drawings for Riyadh Municipality.
- Architectural engineer for landscape and the Residential Heritage Documentation Project across **30,000 heritage sites** in KSA, with evidence-based preservation recommendations.

BIM Engineer | RUBA Engineering Co.

Oct 2022 – Jan 2024 · Amman

- Security Forces Medical Center, Riyadh & Jeddah — **500,000 m²**, **1,400 beds**. Full BIM modelling and coordination, Navisworks clash detection, RCP coordination with MEP & low-current, and complete architectural and IFC submittals.

Site Engineer / Architectural Consultant | Salaymeh Group

Jan 2024 – Jul 2024 · Jordan & KSA

- Palace and chalet-resort landscaping, residential interior design in Riyadh, a 1,700 m² steel-structure date store in Al-Qassim, and public-safety plans for commercial buildings.

Architectural Engineer | Douar Architects

Jan 2021 – Oct 2022 · Amman

- Designed modern villas in Dahiyat Al-Nakheel (AutoCAD + Revit), supervised residential buildings in Marj Al-Hamam, and produced photorealistic visualization with Lumion & V-Ray.

SELECTED PROJECTS

Security Forces Medical Cities — Riyadh & Jeddah | BIM Engineer · 500,000 m² · 1,400 beds
Multidisciplinary BIM coordination and clash detection in Navisworks, with full architectural and IFC submittal packages.

School Road-Safety Programme — Riyadh | Civil Engineer · 300+ schools · iRAP / SR4S
Comprehensive safety study, road and signage enhancements, and Civil 3D drawings for Riyadh Municipality.

Residential Heritage Documentation — KSA | Architectural Engineer · 30,000 sites
In-depth architectural documentation and evidence-based preservation and restoration recommendations.

Infrastructure & Bridges — Dammam & NEOM | Civil / BIM
Bridge and parking-structure works and stormwater culvert design, modelled and coordinated in Civil 3D and InfraWorks.

Residential & Interior Projects — Jordan & KSA | Architectural / Interior
Villas, residential buildings, and interior fit-outs with photorealistic visualization.

TECHNICAL SKILLS & SOFTWARE

BIM & Coordination: Revit (Architecture + Structure), Navisworks Manage, Synchro Pro (4D), Revizto, clash detection, RCP & IFC submittals

Civil & Infrastructure: AutoCAD Civil 3D, InfraWorks, AutoCAD 2D/3D, road safety (iRAP / SR4S)

Structural & Planning: ETABS, Prokon, Primavera P6

Visualization: SketchUp, Lumion, V-Ray

CERTIFICATIONS (17)

Autodesk & Niqat BIM: BIM Management, BIM for Consultants, BIM for Contractors, BIM Implementation, BIM for Operators, InfraWorks, Certified BIM Planner, BIM Coordinator, BIM Modeler (Architectural), BIM Documenter (Architectural), BIM Documenter (Structural)

Road Safety: iRAP Accreditation (SR4S), Star Rating for Schools, Introduction to iRAP

Other: Revizto Expert Level 1, PMP, Advanced Excel

EDUCATION

M.Sc. in Project Management — Al-Zaytoonah University of Jordan | Expected 2027

B.Sc. in Civil Engineering — Al-Zaytoonah University of Jordan | 2024

Diploma, Architectural Engineering & Interior Design — Al-Balqa' Applied University | 2021
